STATE OF CSI

The process of pursuing the collection of remaining debts owing to CSI, including STALCOR and RVI is coming to a point of culmination. A sizeable amount of the debt which was otherwise not collectable, has been collected over the past seven months, mostly using collection agents, legal processes, steel construction specialists (in the case of RVI), and other relevant professionals.

Proceeds from the collections have been, and still are, being used to pay the remaining outstanding creditors which include business rescue, monthly administration costs, debt collection costs, legal costs as well as necessary ancillary costs. The remaining few debts are still being actively pursued, mostly through legal processes that have already progressed, as well as through normal debt collection processes.

SUBSTANTIAL IMPLEMENTATION

The BRPs intend spending the next month or two conducting a handover process of the company back to the shareholders, through the remaining director of the company. This will be done in parallel with the continued debt collection process. Once the handover is completed, the company will be ready for Substantial Implementation.

CONCLUSION AND APPRECIATION

Substantial Implementation will represent a culmination of the winddown process that had been embarked on since July 2021. The BRPs and remaining CSI director are looking forward to the filing of Substantial Implementation.

We are proud to announce that the business rescue of CSI has been nominated for a 2021 DealMakers Award as sponsored by Ansarada in collaboration with a number of other leading companies. The success of the CSI business rescue was only made possible through the patience, pragmatism and professionalism of all of CSI's stakeholders.

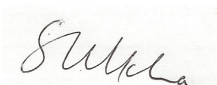

We thank you sincerely.
