STATE OF CSI

As mentioned in previous reports, the Global Roofing Solutions division (“GRS”) business of CSI was sold as a going concern to a ‘special purpose corporate entity’ owned by private equity firm, Rockwood (Pty) Ltd. The business is now trading independently as Global Roofing Solutions, and has taken over the risks and responsibilities of its predecessor.

CSI is now an entity with no significant assets and liabilities , apart from the BRP contingency fees as it has compromised the remaining creditors from the business rescue process. Furthermore, all the employees of CSI have moved across to the new Global Roofing Solutions (Pty) Ltd as of the 1st July 2021.

The BRPs of CSI are now pursuing the collection of all remaining debts owing to the company, including those remaining debts relating to STALCOR and RVI. The process is going well with the assistance of experienced debt collection personnel. Proceeds from successful collections are being used to pay the remaining outstanding creditors which include business rescue and other costs.

COMPROMISE OF HISTORICAL CREDITORS

In terms of the business rescue plan as amended on 25 May 2021 and voted in by the majority of creditors voting (“BR Plan”), the sale of GRS to Rockwood’s Newco allowed the transfer of agreed creditors to the Newco. GRS’s Historical Creditors that have not been transferred to Newco have been duly compromised to zero as per the revised business rescue plan.

SUBSTANTIAL IMPLEMENTATION

The business rescue process for CSI is essentially at a point of winding down of the business. This winding down includes migrating data from servers now used by GRS; collecting outstanding insurance claims, collecting outstanding monies from asset & division sales, filing for and paying/collecting outstanding VAT, PAYE and Income Tax (where applicable); settling warranties & penalties for work done by RVI and, where applicable, collecting outstanding retainers from RVI customers; following up on the collectability of any further outstanding STALCOR debts; and paying administration and outstanding business rescue costs.

Once the winding down has been substantially completed, including all debts being collected and business rescue and related costs paid in full, the company will be ready for Substantial Implementation and will be handed over to its shareholders and directors. It is presently estimated that this process will take place around early 2022.

CONCLUSION AND APPRECIATION

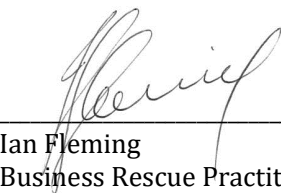

The BRPs and remaining CSI director continue to be grateful for the support shown by customers, suppliers, financiers and landlords in the past 13 months. Even though Substantial Implementation is yet to be filed, the BRPs and former management team of CSI view this as a successful turnaround that has managed to save over 380 jobs ahead of a sale to a more stable environment with a new shareholder.

We continue to wish all the staff and the new shareholders success in their future endeavors as Global Roofing Solutions.

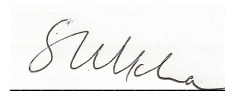

Thank you.
